### General
A high opacity, low odour, micro-porous, water thinned wall primer sealer displaying excellent adhesion to most existing finishes. Highly recommended for use under Mylands water based finishes for internal applications. Suitable for preparing new plaster, friable or patch-repaired surfaces, following appropriate preparation.

### Technical Data
This is a water based product to be used on internal walls. This product is not suitable for external walls. This primer is available in white only and is not a tintable product.

### Application
Ensure all surfaces are clean, dry and free of contamination. The primer is supplied ready to use, if deemed necessary it can be thinned up to 10%.
If painting over powdery or porous surfaces use stabilising solution first.
Treat algal/fungal contaminated surfaces with dilute bleach or with a proprietary wash, then wash and clean thoroughly to remove all debris.
Do not use in extremes of temperature. Use between 8°C to 30°C.

### Drying Time
Touch dry: 1 – 2 hours.
Recoat time: 4 hours.

### Coverage
Up to 15m² per litre depending on porosity and texture of the substrate.

### Thinners
If required, the primer maybe thinned with up to 10% water.

### Equipment Cleaning
Wash brushes/rollers immediately after use, in warm water containing a little detergent.

### Packaging
This product is available in a 5 litre container.

### Storage
This product must be protected from frost.
Store at temperature above 5°C.
Use within 12 months.

### Health and Safety
Refer to Mylands MSDS before use.
